

Team Name: Subiksha Vaidhyanathan, Kyle Cox, Emmanuel Gutierrez Rivera

Report Number: 4

Reporting Week: Feb 3 - Feb 9

Summary of work completed in prior week:

This is our fourth week working on the project. Tasks that have been accomplished are: Watching videos to get familiarized with Angular, continuing work on our project website (adding a cart/sign in page), and starting to integrate our website in a basic way with Firebase.

Summary of work planned for next week:

Continue work on our project website, start & finish work on Requirements and our presentation for them that must take place the week after.

Open issues and action plan to resolve them:

Not a major issue whatsoever, but Subiksha has unfortunately been dealing with sickness - which happens, we are all human! By the sounds of it, this shouldn't be a problem whatsoever for next week.
